DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

2. Claims 1-20 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Gillespie (US 6,823,048 B2; cited by the examiner and applied for the first time).

Regarding claims 1-5, 7-17, 19 and 20, the entire patent to Gillespie plainly and completely teaches by name the claimed method and apparatus for calling name caching in communication networks.

With respect to the limitations recited in claims 6 and 18, refer to column 5, lines 26 – 35.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lewis et al. teach another aspect of calling name caching in order to reduce the number of queries to a foreign network element.
